

EMerge ALLIANCE FACT SHEET

Purpose	Established in 2008, the EMerge Alliance is a not-for-profit, open industry association leading the rapid adoption of safe, low-voltage, direct-current (DC) power distribution and use in commercial interiors through the EMerge Alliance Standard.
Standard	<p>The EMerge Alliance Standard integrates interior infrastructures, power, controls and peripheral devices in a common platform for the selective and scalable distribution of low-voltage DC power. Facilitating the hybrid use of AC and DC power, the Standard provides a means of direct and more efficient connection between on-site alternative energy sources and interior controls and enables commercial buildings to be more flexible, energy efficient and sustainable than ever before.</p> <p>More information on the EMerge Alliance Standard is available at www.emergealliance.org/en/standard/index.asp.</p>
Leadership/ Founding Members	Brian Patterson, Armstrong World Industries Bruce Graham, Johnson Controls Paul Savage, Nextek Power Systems Paula Ziegenbein, OSRAM SYLVANIA John Lamprinakos, Worthington Armstrong Venture (WAVE)
Advisory Council	Anthony Brower, Gensler Larry Eisenberg, L.A. Community College District Brian Fortenberry, EPRI Karl Johnson, University of Calif. – Calif. Inst. for Energy and the Environment (CIEE) Ben Kaplan, Turner Construction Naomi Miller, Pacific Northwest National Laboratory Tom Paladino, Paladino and Company Dr. Konstantinos Papamichael, Ph.D., CLTC, University of California, Davis Jeff Shepard, Darnell Group Alok Singh, Southern California Edison Bill Tschudi, Lawrence Berkeley National Laboratories Nana Wilberforce, The PNC Financial Services Group, Inc. Kurt Yeager, Keyworks
Membership	Alliance membership represents a broad range of leaders involved in the ownership, design, construction, furnishing and equipping of commercial buildings, as well as groups with interests in environmental building standards.

Current list of members available at www.emergealliance.org/en/about/members.asp

Governing Members

Armstrong World Industries
Johnson Controls
Nextek Power Systems

OSRAM SYLVANIA
WAVE

Participating Members

Acuity Brands, Inc.
Anderson Power Products
Convia, Inc.
Cooper Industries
Crestron Electronics
Emerson Network Power

Finelite
Herman Miller
IDEAL Industries
Leviton Manufacturing Company
Lunera Lighting
Lutron Electronics

EMerge Alliance Fact Sheet

Membership (Contd.)

Philips Electronics
ROAL Electronics
Sensor Switch, Inc.
Southern California Edison

Spear Point Energy
Traxon Technologies USA
Tyco Electronics
WattStopper

Liaison Members

BACnet International
CABA
Connected Vehicle Trade Association
EnergyPeak Alliance

EnOcean Alliance
Lawrence Berkeley National
Laboratory (LBNL)
ZigBee Alliance

General Members

Configura
Electri-Cable Assemblies
Kanepi Innovations
Northwire

Steelcase
Universal Lighting Technologies
Verve Living Systems

Corresponding Organization Members

EPRI

Supporting Members

ANL Lighting
Apex Consulting
Brinjac Engineering
CleanTech Commercialization
Delta Products Corp.
Donnelly Kerley Builders
Eden Park Illumination
Emeral Tech
Enviro Energy Partners LLC
FSP – Powerland Technology, Inc.

Good Energies
Integrated Design Associates, Inc.
JB Electrical Design, PC
L. A. Community College District
Lucifer Lighting Company
Metropolitan Lifelong Learning Center
Paladino and Company
PICA Interconnect Solutions
Standard Solar, Inc.
Webcor Builders

Represented Alliance Interests

Commercial Developers
Construction Industries
Architects/Designers
Building Owners
Building Product Manufacturers
Technology Developers

Governmental Agencies
Utilities
Engineering Firms
Sustainability Groups/Consultants
Trade Organizations
Facility Managers
