

## EMerge ALLIANCE FACT SHEET

**Purpose** Established in 2008, the EMerge Alliance is a not-for-profit, open industry association leading the rapid adoption of safe DC power distribution in commercial buildings through the development of EMerge Alliance standards.

**Standards** The innovative EMerge Alliance standards integrate infrastructure, power, controls and devices (such as lighting) in a common microgrid platform to facilitate the hybrid use of AC and DC power throughout buildings for unprecedented design and space flexibility, greater energy efficiency and improved sustainability. We believe that ongoing and increasing demand for improved reliability and energy efficiency across all areas of commercial buildings provides the need for the EMerge Alliance family of power distribution standards in Occupied Spaces, Data Centers, Building Services, and Outdoor Applications.

More information on EMerge Alliance Standards can be found at [www.emergealliance.org/en/standard/index.asp](http://www.emergealliance.org/en/standard/index.asp).

**Board Members** Brian Patterson, Armstrong World Industries  
Bruce Graham, Johnson Controls  
Paul Savage, Nextek Power Systems  
Jim Sanford, OSRAM SYLVANIA  
Peter Kuehnel, Philips  
John Lamprinakos, Worthington Armstrong Venture (WAVE)

**Advisory Council** Anthony Brower, Gensler  
Amy Cake, Turner Construction  
Brian Fortenbery, EPRI  
Karl Johnson, University of Calif. – Calif. Inst. for Energy and the Environment (CIEE)  
Ben Kaplan, Turner Construction  
Dr. Konstantinos Papamichael, Ph.D., CLTC, University of California, Davis  
Naomi Miller, Pacific Northwest National Laboratory  
Michael Shulman, Underwriters Laboratories Inc.  
Jeff Shepard, Darnell Group  
Bill Tschudi, Lawrence Berkeley National Laboratories  
Donald Talka, Underwriters Laboratories  
Nana Wilberforce, The PNC Financial Services Group, Inc.  
Kurt Yeager, Galvin Electricity Initiative

**Membership** Alliance membership represents a broad range of leaders involved in the ownership, design, construction, furnishing and equipping of commercial buildings, as well as groups with interests in environmental building standards.
